ASSEMBLY AND INSTALLATION INSTRUCTIONS for the **449302** Fixture

Important Safety information (Please read before proceeding)

1. Remove the fixture, parts and all mounting hardware bags (orange) from the carton and verify that all parts are present according to the illustration sheet. All parts must be used as indicated. Do not replace any parts, leave any parts out, or use any parts which are worn out or broken. **Failure to follow the instructions could cause a hazardous situation, voids the warranty and violates the U.L. listing of the fixture.**
2. To prevent the electric shock, turn off the main power at the circuit breaker before installing the fixture. **NEVER attempt to install, clean or replace bulbs without shutting off the electricity to the fixture.**
3. **Never use light bulbs with wattage ratings that exceed the fixtures maximum rating.** Always make sure the electric current is turned off before changing the bulbs.
4. If you experience difficulties installing the lighting fixture or it fails to work as expected, please contact a local qualified licensed electrical contractor.
5. Please contact your local Capital Lighting Fixture reseller with any assembly or installation questions. Your local reseller can also provide you with replacement parts for your new fixture.

Components

- | | |
|--------------------------------|--------------------------------|
| 01. Mounting Bar w/Green Screw | 02. Mounting Screws |
| 03. Hex Nut (8/32) | 04. Outlet Box Mounting Screws |
| 05. Hex Nut (1/8IP) | 06. Lock Washer |
| 07. Safety Cable w/Hook | 08. Canopy |
| 09. Cylinder Nut | 10. Nipple |
| 11. Chain | 12. Loop (1/8IP) |
| 13. Loop (1/8IP) | 14. Coupler (Dual-Head 1/8IP) |
| 15. Rod | 16. Coupler (Dual-Head 1/8IP) |
| 17. Rod | 18. Coupler (Dual-Head 1/8IP) |
| 19. Rod | 20. Center Pipe |
| 21. Top Tier Fixture | 22. Bottom Tier Fixture |
| 23. Pin | 24. Assembling Hole |
| 25. Wiring Terminal | 26. Top Tier Fixture Arm |
| 27. Bottom Tier Fixture arm | 28. Center Acrylic Tail |
| 29. Tube End | 30. Long Acrylic Tail |
| 31. Tube End | 32. Short Acrylic Tail |
| 33. Tube End | |

Assembly Instructions to HANG the 449302 Fixture by the Chain

1. Lower Top Tier Fixture (21) toward Bottom Tier Fixture (22), then insert Male into Female of Wiring Terminal (25).
2. Lower Top Tier Fixture (21) over nipple end of Bottom Tier Fixture (22), make sure Pin (23) and Assembling Hole (24) of Top Tier Fixture (21) are in line, pass lead wire from Top Tier Fixture (21) through Center Pipe (20) and screw Center Pipe (20) onto Top Tier Fixture (21) tightly.
3. Pass lead wire from Center Pipe (20) through Rod (19), Coupler (18), Rods (17), Coupler (16), Rods (15), Coupler (14) and Loop (13), then screw all together. *Note: The Fixture Height can be adjusted by varying the number of rods or chain used in the assembly.*
4. Pass lead wire through Chain (11), Loop (12), Nipple (10) and Canopy (08), then slip Safety Cable w/Hook (07), Lock Washer (06), thread Hex Nut (05) onto Nipple (10). Finally, tighten Hex Nut (05) to secure Loop (12) to Canopy (08).
5. Find appropriate threaded holes on Mounting Bar (01), and assemble Mounting Screws (02) into threaded holes with Hex Nuts (03).
6. Attach Mounting Bar (01) to Outlet Box with Outlet Box Mounting Screws (04).
7. Raise whole Fixture toward outlet box, then hang it onto Mounting Bar (01) with Safety Cable w/Hook (07). *Note: This will allow for fixture to be supported while wire connections are made.*
8. Connect fixture ground wire to the outlet box ground wire with wire connector supplied; connect the common wire of the lamp cord to the power supply white wire with wire connector supplied; connect supply wire of the lamp cord to the power supply black wire with wire connector supplied. *Note: This fixture is wired using 2 conductor Lamp cord. The insulation between the two conductors on the lamp cord can be split down the center for better access to the two conductors. The common wire on the lamp cord is identified as the conductor with ribs embossed in the rubber wire insulation.*
9. Push Canopy (08) to ceiling, carefully passing Mounting Screws (02) through holes in Canopy (08), then verify all wires are securely inside Canopy (08). Finally, secure Canopy (08) to ceiling with Cylinder Nuts (09).
10. Rotate Top Tier Fixture Arms (26) and Bottom Tier Fixture Arms (27) so they are equally spaced around the fixture. *Note: If the fixture does not hang straight it is normally due to the arms spacing not being equal.*
11. Screw Center Acrylic Tail (28) onto Tube End (29) of Bottom Tier Fixture (22) per the illustration shown.
12. Screw Long Acrylic Tails (30) onto Tube Ends (31) and Short Acrylic Tails (32) onto Tube Ends (33) of both Top Tier Fixture Arms (26) and Bottom Tier Fixture Arms (27) per the illustration shown.
