

LIGHTING FIXTURE COMPANY

ASSEMBLY AND INSTALLATION INSTRUCTIONS for the **839051** Fixture

Important Safety information (Please read before proceeding)

1. Remove the fixture, parts and all mounting hardware bags (orange) from the carton and verify that all parts are present according to the illustration sheet. All parts must be used as indicated. Do not replace any parts, leave any parts out, or use any parts which are worn out or broken. **Failure to follow the instructions could cause a hazardous situation, voids the warranty and violates the U.L. listing of the fixture.**
2. To prevent the electric shock, turn off the main power at the circuit breaker before installing the fixture. **NEVER attempt to install, clean or replace bulbs without shutting off the electricity to the fixture.**
3. **Never use light bulbs with wattage ratings that exceed the fixtures maximum rating.** Always make sure the electric current is turned off before changing the bulbs.
4. If you experience difficulties installing the lighting fixture or it fails to work as expected, please contact a local qualified licensed electrical contractor.
5. Please contact your local Capital Lighting Fixture reseller with any assembly or installation questions. Your local reseller can also provide you with replacement parts for your new fixture.

Components

1. Mounting Bracket w/Green Screw
2. Outlet Box Mounting Screws
3. Plastic Anchors
4. Wood Screws
5. Mounting Screws
6. Hex Nuts (8/32)
7. Cylinder Nuts
8. Safety Cable w/Hook
9. Fixture Canopy
10. Turn Buckle
11. Chain Link
12. Chain Link
13. Lead Wire
14. Chains
15. Loops (1/8IP)
16. Loops (1/8IP)
17. Coupling (1/8-27IP)
18. Reducer (5/8IP to 1/8-27IP)
19. 6" Rod
20. Coupling (5/8IP)
21. 12" Rod
22. Coupling (5/8IP)
23. 18" Rod
24. Reducer (5/8IP to 1/8-27IP)
25. Fixture

Assembly Instructions for the 839051 Fixture

1. Pass Lead Wire (13) from top of Fixture (25) through Reducer (24), 18"Rod (23), Coupling (22), 12"Rod (21), Coupling (20), 6"Rod (19), Reducer (18), Coupling (1/8 - 27IP) (17) and Loop (16), then screw all of them together. After that, repeat the same assembling steps for another side without wiring. *Note: The Fixture Height can be adjusted by varying the number of rods or chain used in the assembly.*
2. Pass Lead Wire (13) thru one Chain Link (12), Chain (14), another Chain Link (11), Small Loop (15) from Fixture Canopy (09). Finally, connect all of them together. After that, repeat the same assembling steps for another side without wiring.
3. Find appropriate threaded holes on Mounting Bracket (1), then assemble Mounting Bracket (1) to mounting surface using hardware suitable for material of mounting surface. Mark position of holes on mounting surface before using provided Plastic Anchors (3), drill appropriate holes and assemble as illustrated.
4. Find appropriate threaded holes on Mounting Bracket (1), and assemble Mounting Screws (5) into threaded holes with Hex Nuts (6).
5. Attach Mounting Bracket (1) to Outlet Box with Outlet Box Mounting Screws (2), and to mounting surface with Wood Screws (4) tightly.
6. Raise whole Fixture Canopy (9) toward outlet box, then hang it onto Mounting Bracket (1) with Safety Cable w/Hook (8) as the illustration shown. *Note: This will allow for fixture to be supported while wire connections are made.*
7. Connect fixture ground wire to the outlet box ground wire with wire connector supplied; connect the common wire of the lamp cord to the power supply white wire with wire connector supplied; connect supply wire of the lamp cord to the power supply black wire with wire connector supplied. *Note: This fixture is wired using 2 conductor Lamp cord. The insulation between the two conductors on the lamp cord can be split down the center for better access to the two conductors. The common wire on the lamp cord is identified as the conductor with ribs embossed in the rubber wire insulation.*
8. Push fixture to ceiling, carefully passing Mounting Screws (5) through holes in Fixture Canopy (9), then verify all wires are securely inside Fixture Canopy (9). Finally, secure fixture to ceiling with Cylinder Nuts (7).

Note: If the fixture is not leveled after hung, please adjust (screw) the Turn Buckle (10) up or down to help it.
